

## Solid round tools: 3 clear-cut solutions to meet your demands

With more than 10,000 standard products, Sandvik Coromant's solid round tools range is developed to cover all application types within the areas of solid carbide drilling, milling, high speed steel tapping, reaming and threading.

Its extensive offer are segmented into 3 categories:

- 1. Versatile Solutions - for high flexibility and cost efficiency**  
Pick Versatile range if you are searching for one tool for many materials or applications
- 2. Optimized Solutions - for specific needs that provide extreme efficiency, reliability & durability**  
Choose Optimized range when you need a tool dedicated for specific material or application
- 3. Customized Solutions - for highest demands on performance**  
This range offers tailored tools that are not available in our standard product offer

It's not the size of the operation, it's the range of application that matters. Start by selecting the relevant category of solid round tools depending on your application demands.
